

1a. Has your organization made any changes or upgrades to facilitate the growing e-bike market? Or plans for the future?

1b. Has your organization made any changes, upgrades, plans to facilitate the growing e-bike market? Share further info:

E-bike charging station pilot project

Not at this time.

Plans to add e-bikes to our fleet of bike share bikes

We have not made any plans or upgrades and don't have much information about this trend. Would be curious to see stats about the growing market.

Not at this time.

We have an e-bike bylaw and will be looking at e-bike parking when we initiate our bike parking guidelines.

We are finalizing our new cycling master plan. Interestingly, the consultant working on it left ebikes out of the plan. We asked for additional content be added to the draft regarding ebikes

Minimal required for us. Looking at creating resources referencing e-bike usage for the GLWT. For our bike tour we have increasingly had to accommodate e-bike in tandem with usage growth.

1b. Has your organization made any changes, upgrades, plans to facilitate the growing e-bike market? Share further info:

The Region has increased the number of ebikes and scooters available to rent within WR. As well the Region is working our cities to expand the service area & no. Of Neuron rental stations

2a How would you/your org rate the importance of having a designated provincial cycling network brought to market? Scale of 1 to 10 (10 = Important)

2b Re. the provincial cycling network, share comments on what should be prioritized

This would be positive for rural destinations around Ottawa.

Cross border markets for long-haul cyclists.

Routes with established identities and/or consistent experiences. The network in its entirety is a lot to market and would be difficult to market effectively. There should definitely be collaboration.

Driving ride itineraries along the major routes
